

## WhatsApp in the time of .....Coronavirus

(Title drawn from a famous book with apologies to the author)

What do Inner Wheelers do?  
When faced with Coronavirus - a sort of flu,  
The Inner Wheelers who work so hard  
In Saffron Walden's own back yard  
To raise funds for local charities -  
It's one of their priorities.

Well, they start a WhatsApp group  
To keep each other in the loop.  
It's lots of fun, I'll tell you why-  
We keep each other in our mind's eye.

We check in every morning to see  
If we are fit, healthy and full of glee.  
We learn what each other is doing  
And even what we plan on viewing!

We share the silliest of posts  
That make us laugh in our outposts!  
We share when things are available to buy  
And don't let precious items pass us by.

We know when friends have washed their hair  
We see the rollers, fair and square!  
We know when friends have shaved their legs  
And if they've eaten ham and eggs.

And now to the serious part  
We comfort each other, hand on heart.  
Some are alone, some are not  
But it matters, not a jot!

We give and get support when needed  
And no request will go unheeded,  
So, yes, it's tough for all of us  
But being WhatsApp friends is a great big PLUS!
